

Saddleback College Emeritus Institute  
Photography Field trip, Wednesday 12/06/17  
**Be there by 9:30am**

Note: We do not have class the week of 12/06; this field trip is our class!

### **Lyon Air Museum**

19300 Ike Jones Rd, Santa Ana, CA 92707

<http://www.lyonairmuseum.org/>

Objective: Photograph exhibits of airplanes, automobiles, military motorcycles and vehicles. From 9:45 to approximately 11:00, we will have a docent-led tour with time to make images of some of the rarest operational aircraft and vehicles in the world.

Important: Do not go into John Wayne (Santa Ana) airport. The way into Lyon Air Museum is different:

**Directions:** Take the 405 freeway to the 55fwy southbound, exit Baker, left on Baker to dead end (go through driveway), even though it looks gated. Drive until you see the Lyon Air Museum, you will see a sign for the museum to the right and drive all the way in and go to the last building.

Parking is free.

Major cross streets are: Baker and Redhill.

- OK to bring tripods and monopods, and wear comfortable shoes. Bring your favorite lenses and charged camera and an extra battery.
- Your best three images are due the following week, for review in class – submitted to our on-line gallery.
- The Lyons Air Museum would love to receive your best images! They will give us an e-mail address for submissions, and will need your consent and first and last name for attribution.
- Please bring cash, check or credit card; admission is \$8.00 (we got the group rate).
- Please RSVP by the week of 11/29. You must have already signed the Saddleback College hold-harmless waiver.
- Important: Please do NOT bring visitors who are not enrolled in the class.
